30" Loveseat	\$569

Finishes

Standard:
Traditional photographic texture

Canvas:
Artist's canvas, mounted & ready for framing

Gallery:
Museum style artist's canvas on a stretcher frame which may be hung without framing

Session

Your family session can be taken at your home, the location of your choice, or in our studio. A pre-planning consultation is included, which gives us a chance to plan the best portrait possible for your family. We can discuss exactly what you have in mind, which rooms/areas you will want portraits for, and discuss clothing options. The consultation is best done in your home, but can also be done in the studio. We will bring along samples of the different types of wall art that we offer, so you can get an idea of what will work best in your home.

During the session, we will take the entire family plus whichever individual portraits or groups you would like. Typically we will shoot the entire family, each individual family, parents together, siblings together, each child, grandparents with all the grandchildren, and all the cousins. We can do several different locations if you would like.

After the session we will set up a time for you to come into the studio and view your images. We have a projection room, which allows you to see what each image will look like full size. Once you have chosen everything you would like and placed your order, your portraits will be ready in 2-4 weeks, depending on which products you choose.

Session Fee: \$150

Preparing

Clothing selection is probably the most important part of the planning process and the biggest factor in how beautifully your final images will turn out.

When planning clothing, everyone should be coordinated. Jeans with black shirts, jeans with white shirts, khaki's with white shirts, or black pants with white shirts, are some suggestions. Light blue or light yellow shirts with jeans are great for beach portraits. Stay away from bright colors and anything striped or patterned. Neutrals are best unless we are planning a portrait for a room with a particular color scheme. When you coordinate clothing, no one stands out and the focus is on the people and expressions rather than the clothes, creating a more timeless look.

You can also bring any props or anything that is special to your family to include in the photos. Pets are always welcome. We recommend that you have someone ready to hold your pet or have a carrier to put them in so we can do some photos without them as well. We are always available to answer questions as you are preparing for your portrait.
